SUMMARY

Full-stack engineer with 7+ years shipping production systems across React, Node.js, Python, and .NET. Experienced in AI-augmented development using Claude Code and Cursor, multi-repo agent orchestration, agentic workflows, scalable backend systems, and modern frontend architectures. Open to senior full-stack and AI engineering roles.

SKILLS

Languages: JavaScript, TypeScript, Python, Go, C#, SQL
Frontend: React, Next.js, React Native, D3.js, Tailwind, Material UI
Backend: Node.js, Express, Flask, FastAPI, ASP.NET, AdonisJS
Databases: PostgreSQL, PostGIS, MSSQL, MongoDB, Redis
Infra & Tools: Docker, AWS Lambda, BullMQ, WebSockets, Git, Jest, PyTest, Playwright
AI & Agents: Claude Code, Cursor, LangChain, LoRA fine-tuning, Hugging Face, OpenAI APIs

EXPERIENCE

Frontend Developer (Core Dev, FE & BE) — Picarro Inc. | Apr 2025 – Present

Led a 5-engineer backend and QA team through 3 production releases of PCubed. Delivered ASP.NET, C#, JavaScript, and MSSQL features, DB migrations, and UI enhancements. Improved application security by resolving major JS vulnerabilities. Co-developed LogicGas AI using Phi-3, LoRA, and FastAPI.

IT Analyst / Full-Stack Developer — TCS (Hertz & EHI) | Jul 2022 – Apr 2025

Built full-stack features with React, Node.js, Flask, and PostgreSQL; maintained REST APIs and tests. Led React UI initiatives, maintained 99% uptime, and received Performance Band 'A'. Migrated legacy React systems and resolved 400+ production issues using React, TypeScript, Node.js, and AWS Lambda.

Software Engineer — Deepcompute (Nference) | Oct 2018 – Jun 2022

Led frontend engineering for medical research and clinical-trials platforms. Built scalable Flask/PostgreSQL services and React SPAs with D3 visualizations.

SELECTED PROJECTS

- KisanKANT — Hindi-first farmer super-app using Go, Expo, Postgres, and Claude agent skills.
- Real-Time Market Data Platform — Multi-feed ingestion system with normalized APIs and sub-second updates.
- Yevacure — Pharma platform built with React 19, Vite, Tailwind, and Claude Code workflows.
- Gypsy — Laundry platform with 4 React Native apps, Node.js backend, Redis, BullMQ, and WebSockets.

EDUCATION

B.E., Computer Science and Engineering — NMAM Institute of Technology (VTU) | 2014 – 2018

M.Tech (Software Systems) — BITS Pilani (Work Integrated) | 2022 – 2024

CERTIFICATIONS

AWS Certified Developer – Associate | Generative AI | Agile Practitioner
